Journey to Enlightenment

If one really wishes to be a master of Robie Creek, technical knowledge is not enough. One has to transcend technique so that running becomes an artless art growing out of unconscious. In the case of running, the start and the finish no longer are two opposing objects, the start is the finish and the finish is the start. One of the simple truths of the 25 years of the Robie journey to enlightenment states that if you do not wish to drown, do not torture yourself with shallow water.
